- **Cloud Platforms:**

AWS, Azure, Google Cloud Platform

EXPERIENCE

Onhova(E-commerce)

Oct 2021 - April 2023

Front-end Developer.

Onhova is a cloud-based solution that provides tools and services for small businesses to set up an online store and streamlines their sales, marketing, and customer engagement processes.

- Led a team of front-end developers to design, develop and maintain the platform
- Utilized a wide range of technical skills and tools including React, Redux, and React-native.
- Participated in hiring and onboarding processes for interns, and new developers and provided pieces of training and support to ensure that the team was equipped with the necessary skill set and knowledge to meet project requirements.
- Worked closely with backend developers to ensure that frontend components integrated smoothly with server-side APIs and other backend systems

Cheetrr(Mobility) contract

May 2022 - July 2022

Front-end Developer.

Cheetrr is an eco-friendly micro-mobility transportation service that creates opportunities by reducing carbon emissions and making navigation around the city easy and accessible and reducing road traffic.

- Utilized a wide range of front-end technologies, including HTML, CSS, Javascript, React, and Bootstrap.

- Worked closely with a backend developer to ensure that frontend components are integrated smoothly with server-side APIs and other backend systems.

Semicolon Africa

January 2021 - January 2022

Software Engineer

Semicolon Africa is a social enterprise that provides training, and mentorship in software development

- Proficient in Java, Javascript, Python, ReactJS, Spring boot, and Django with hands-on experience developing projects in these technologies.
- Demonstrated ability to work effectively in a team environment and collaborate with cross-functional stakeholders to deliver high-quality software products.
- Strong problem-solving skills and ability to learn quickly, with a passion for leveraging technologies to drive innovation and create value for end-users.

EDUCATION

Henley Business School.

- **Course(s):** Business logic mindset, Business Model Canvas.
